Foreign-Language Press Denounced as a Menace by Vice Councilor Smith

ORGANIZATION FLOURISHING

Atlantic City. Oct. 11.—More than 500 delegates are here for the convention of the State Council of the Junior Order of Ameicanr Mechanics. For the office of State council or it is predicted that State Vice Councilod William M. Apgar. of Boonton, will succeed Robert Carson Smith, of New Brunswick, the present State leader.

The foreign-language press will come in for condemnation in the annual report which Councilor Smith will make to the convention when it opens toin for concennation in the analysis of the convention when it opens to the convention when it opens today. The report declares "It is a menace for the reason that its tendency is to keep the breach wide open between American ways and manners and the old style of life. It is hoped that it will pass away in the further evolution of our national life. At all cents, all official notices of the courts and other official advertising should be with trawn from it."

That the organization is in a flour-shing condition is evidenced by the fact that in the last year there has been a net gain in membership throughout the State of 1115. The financial increase was \$125,203,37. There are now 318 councils in the State.

A commission of three men was named by Charles C. Black, Supreme Court Justice, yesterday at Mays Laming to adjudicate the differences between Atlantic and Burlington Counties over the construction of a bridge across the Mullica River at Lower Bank. The commission consists of William A. Faunce, an Atlantic City realty expert; former Sheriff Joseph R. Bartlett, of Atlantic County, and James K. Logan, former county engineer for Burlington County.

Robert Peacock, County Solicitor of Burlington County, informed the Court that up to this time Burlington County had been financially unable to join in the expense of the work. He added that they were now prepared to share in the expense, but expressed the office that the bridge could be constructed for \$40,000 instead of the \$80,000 called for in the plans of Atlantic County.

GERMAN BOASTS OF HIS HELP IN SINKING SHIPS

Captain of Tanker Served on the Raider Wolf

Chester, Oct. 11.—Captain C. R. Heitzman, of the Julius Schlinder, a German tanker which yesterday left the Pure Oil Company's pier at Marcus Hook, was a member of the crew of the Wolf, the notorious German raider during the war.

Captain Heitzmann vouched for the fact that in a fifteen months' period "about" twenty ships of the Allies were sunk and 465 sailors were taken prisoner of war.

were sunk and 465 sailors were taken prisoner of war.

"We took 465 prisoners, representing twenty-three nationalities—Japs, Indians, Chinese, Creoles, Australians, Russians, Slavs, Finns, Italians, Scots, English, Negrees and others," he said. Captain Heltzmann declared he had many snapshots of most of the sinking vessels, which were togeted an vide. vessels, which were torpedoed or rid-dled with shell fire after crew and passengers had been removed from the doomed vessels.

OFFICIAL BURIED ALIVE

fine Company Employe Smothered in Culm Bank

Pottsville, Pa., Oct. 11.—Robert P.
Miller, an official of the Philadelphia
and Reading Coal and Iron Company,
of Minersville, was buried alive at the
Glandower colliery yesterday. He was
working at the culm bank, looming up
mountain-like in height, the bottom
having been undermined by a steam
shovel. Suddenly the upper part of the
bank fell and shot forward, just as
though it was extending a huge arm.
and Miller was covered in his living
grave.

It was earlier to the proper part of the

# Using Printing is more than buying printing

Merely buying a booklet or a catalog or some circulars from a printer is not of itself going to sell your goods.

Printed advertising is something to be used. It is a means to an end. It is a way to reach many people quickly and at a low cost and tell them something.

But printed advertising is something to be planned, something to be conceived and used with a knowledge of how it works. The mere fact that you have spent money for printing will not make sales for you.

This fact makes the selection of a good printer a thing of prime importance. The good printer can produce good printing, and you, the advertiser, can turn your efforts into planning a message that says what you want to sav.

That you may not be without help in deciding the major questions in planning your printing, we call your attention to a series of books, entitled "Making it Easy to Plan Printing."

> better paper better printing

"Making It Easy to Plan Printing" is the title of a series of books on better direct advertising which printers and advertisers can secure on application to distributors of Warren's Standard Printing Papers.
